EDUCATION

Moscow City University <i>Master's in Management of Educational Systems</i>	Moscow, Russia 2024 – 2026
Lomonosov Moscow State University <i>Bachelor of Sociology, Dept. of Economics and Management</i>	Moscow, Russia 2020 – 2024

EXPERIENCE

Product Manager <i>Moscow Department of Education</i>	June 2025 – Present Moscow, Russia
- Direct product discovery and integration for a regional IT system connecting 2,000+ educational institutions, increasing overall data processing efficiency by 35%. - Spearheaded the implementation of the "Testograf" system for 350+ large-scale events, analyzing 16 IT solutions to ensure high security and achieving 100% uptime during peak loads. - Launched the "Oracle" MVP, utilizing Google Apps Script and Python to unify 40+ data sources and automate routine reporting, resulting in over 1.7M RUB in annual operational savings. - Coordinate a cross-functional team of developers, system administrators, and designers to support the regional sports portal, scaling social media reach to 25,000+ subscribers.	
Founder & Product Manager <i>GrowEasy (EdTech Startup)</i>	Feb. 2023 – April 2025 Moscow, Russia
- Built and launched an online coding school from scratch, achieving a successful business exit after reaching a stable 500k RUB monthly revenue with a 30%+ margin in just 6 months. - Led product discovery via 40+ CustDev interviews and A/B testing of sales funnels, optimizing unit economics to reach a high LTV of 20k RUB per student over an 8-month cohort. - Developed a proprietary curriculum generation methodology based on students' strengths utilizing competitive benchmarking, which boosted the student retention rate by 25%. - Recruited, trained, and managed a team of educators, designing incentive frameworks that ensured high educational quality and decreased employee turnover to under 5%.	
Product Manager <i>AdventureRoad</i>	Aug. 2022 – Sept. 2024 Moscow, Russia
- Owned the product lifecycle for 12 unique gamified experiences, using HADI cycles and managing a cross-functional team of 10 to test hypotheses, driving a 40% increase in user acquisition. - Directed logistics, narrative design, and operational strategy for large-scale immersive events (e.g., "Heavenly Party" with 2,500+ attendees), boosting B2C lead generation by 45%. - Secured 10+ strategic partnerships with major national festivals and B2B vendors, reducing overall production and marketing costs by 20%.	

RELEVANT PROJECTS

AI Business Integration <i>Product Consultant</i>	2023
Designed and deployed 5 no-code AI solutions for a US-based real estate firm to automate competitor monitoring, dynamic pricing, and social media analytics, saving 15+ hours weekly.	
E-sports Division Lead <i>Lomonosov Moscow State University</i>	2021 – 2023
Directed the League of Legends division for the university's e-sports club, establishing rigorous training frameworks that led student teams to 3 top-tier tournament placements.
